SPHERE STANDARDS IN HUMANITARIAN PRACTICE

26-30 DECEMBER 2019 | PUNE, INDIA

This 5-day course helps to build a good understanding of the rationale, structure and content of the Sphere Standards, and provides clear understanding on the minimum standards, indicators and key actions on WASH, Food Security and Nutrition, Health and, Shelter and Settlements. This training course aims to enhance the participants' capacity to understand and apply the Sphere Standards as a tool for humanitarian and DRR decision making and project implementation. The course provides a sound orientation on technical standards and links it to the principles, core humanitarian standards and legal frameworks that constitute the basis of Sphere Standards. The training would also deal with the practicalities of implementing Sphere in humanitarian response.

COURSE CONTENT

- Introduction to Humanitarian Emergency; Sphere Project and Sphere Handbook; Humanitarian Charter; Protection Principles; and the Core Humanitarian Standard. Focus on familiarising the participants with ethical, legal and practical basis for humanitarian response.
- Familiarization with the four essential domains in Sphere: The four sectors which will be detailed to the participants are: WASH; Food Security & Nutrition; Shelter and Settlements; and Health. The participants will also be trained on how to apply Sphere Standards in their professional practice.
- Understanding concepts such as Sphere Assessment & Analysis; Sphere and the Programme Cycle; Sphere Cash & Markets; and Sphere, Quality and Accountability.
- Introduction to Sphere and the Complementary Standards. The learnings from the training will further be strengthened through Simulation Exercises and open discussion between the participants.

COURSE OBJECTIVES

Explain the philosophy and approach of the Sphere Project.

Understand and describe the relationship between Sphere, Humanitarian Charter and Rights Based Programming.

Identify the linkages and difference between (Sphere) Minimum Standards, Key Indicators, Key Actions and Guidance Notes.

Learn to apply Sphere in assessments, planning, monitoring and evaluations, of humanitarian response programme.

Know the Core Humanitarian Standards and explain their linkages with technical interventions at all stages of project cycle.

Use the Standards and indicators (from each technical chapter) for an effective humanitarian Response.

TRAINING METHODOLOGY

The training will be facilitated using a mix of methods including Group Exercises, Case Studies and Scenarios, Demonstrations, Focus Group Discussions and Experiential Learning and Exchange among the Participants.

HOW TO APPLY?

To register for this course, please click participant registration form. Your registration will be confirmed on receipt of the completed form and course fee. Write to us at training@redrindia.org if you encounter any difficulty in filling the online form or for any queries regarding the training.

WHO WILL CONDUCT THIS COURSE?

RedR India's standard Sphere Training Module will be used in the training by our experienced trainers. The module has been developed, like all other training modules of RedR India, keeping global standards and practices in consideration.

The training will be conducted by trainers with vast experience in relief work and the humanitarian sector where they have applied Sphere in practice.
